Why **THERMALPRO** Wood?

Stable & Solid

Expansion and contraction reduced up to 90%. Resists warping, cupping.

Eco-Friendly

Non-toxic, chemical free thermal modification process improves durability and brings out its natural beauty.

Decay Resistant

Less water absorption means a higher resistance to rot, mold and decay.

Pre-Finished

Choose factory finishing in clear or 16 colors with UV protectant.

Rated for all climates and exterior applications. Chemical-free, with no warping, twisting, or swelling.

THERMALLY MODIFIED DECKING
